NEW PRODUCT

PULLING AND LIFTING WINCHES

1. Stamped steel casing with reinforced shaping, double galvanized protection, lightweight, strong, with transport handles.
2. Activating levers, situated in line with the wire rope, ensure stability and improve the transmission of power.
3. Protection against advance overload, by means of a safety screw, which operates when overload reaches near 100% of nominal capacity (28% of maximum traction capacity).
4. Grip-Jaws opening system by means of claw couplers –patented- easy to carry out due to being visible from the outside.
5. High output of mechanism \rightarrow 95%, due to the high quality of materials used. No aluminum components, suitable for use in mines.
6. All winches are tested at the Factory, carrying out forward and backward runs with 125% of the nominal load. All wire ropes are tested, with their loop and hook, at 200% of the nominal load.
7. Design factor of winch and wire rope is 5:1.

DATOS TÉCNICOS / TECHNICAL INFORMATION / DONNÉES TECHNIQUES

MODELO / MODEL / MODÈLE		8 A	16 A	32 A
Fuerza Nominal / Nominal Capacity / Capacité Nominale	lb	1,763	3,527	7,054
Avance del cable por ciclo accionado / Wire rope advance per activated cycle / Avance du câble par cycle commandé	in	2.126	2.2835	1.7717
Fuerza nominal en la palanca / Nominal strength in lever / Force nominale sur le levier	lb	63.93	88.18	116.85
Peso neto con palanca sin cable / Net weight with lever without cable / Poids net avec levier sans cable	lb	15.43	26.45	55.11
Medidas del embalaje / Packaging sizes / Mesures de l'emballage	in	17.32x3.54x11.02	22.04x4.72x14.17	27.56x4.33x14.96
Cable / Wire rope / Câble \varnothing	in	0.326	0.444	0.641
Carga de rotura del cable / Cable breaking load / Charge de rupture du câble	lb	10,582	21,164	42,329
Peso del cable por pulgada / Weight of cable per inch / Poids du cable per pouce	oz	0.24	0.45	0.89
Peso 20m con enrollador / Weight 20m cable with reel / Poids 20m câble avec enrouleur	lb	13.66	26.45	51.14

Construction - Public works, Mines and quarries - Electricity and Communications - Shipyards, Navigation - Transport, Railways
Firemen, Garages, Agriculture, Forestry - Chemical and Petrol Industry - Armed Forces - Etc.
